WHAT CAN UPHA DO FOR YOU?

-  As a Public Health Professional ... UPHA affords you the opportunity to join with others to shape the future of public health in Utah. Our members encompass many disciplines in the public health field. Through affiliation, our members are provided with a foundation of scientific knowledge, experience, partnership, advocacy, leadership, and vision necessary to make sound decisions regarding the public's health.
-  As a Decision Maker ... UPHA provides for you expert professional insight, advise, counsel, and education.
-  As a Citizen ... UPHA studies the development of federal, state and local health legislation, informs you of important developments, and involves you in the process.

- Annual Conference and Professional Meetings
- Legislative *Advocacy*
- Professional *Recognition*
- Information *Exchange*
- Professional *Involvement*

UPHA is a charter member of the Utah Health Care Professions/Public Health Initiative.

Utah Public Health Association

PO Box 16048
Salt Lake City, Utah 84116-0048

A Public Health Association Organized to

- Promote the establishment, delivery and maintenance of public health services
- Provide opportunities for development and interaction to those interested in enhancing public health
- Support and advance scientific knowledge

OUR HISTORY

Since our inception in May 1916 the Utah Public Health Association (UPHA) has been dedicated to improving the health of all Utahns. For over 80 years, the Association has sought to speak with one voice to promote and protect the public's health, to extend and develop health services, and to provide for scientific advancement. UPHA is the largest organization of public health professionals in the State. UPHA is an affiliate of the American Public Health Association.

OUR PURPOSE

The Utah Public Health Association is dedicated to promoting quality public health policy and providing public health advocacy and education for its members and the people of Utah.

OUR GOALS

To promote healthy lifestyles and protect our health and environment in Utah, UPHA has set high goals and will strive to achieve these five areas of focus:

1. A healthy environment.
2. Pro-active public health policy.
3. Services which address personal health needs.
4. A community well informed about issues of public health.
5. Committed, educated and effective public health professionals.

MEMBERSHIP OPPORTUNITIES

Meaningful involvement in the activities of UPHA are encouraged and made possible through the structure of committees. Members drive the association by participating on standing committees or elected boards and offices. No matter what your interest, one of these committees will provide you the opportunity to serve:

- ◆ **Professional Development** - Promotes and improves developmental opportunities for health professionals, students, educators, and others interested in public health in Utah through seminars, courses, and luncheons.
- ◆ **Editorial/Newsletter** - Responsible for the publication of the association newsletter and any other professional publications.
- ◆ **Program Committee** - Responsible for planning an effective annual public health conference.
- ◆ **Awards** - Makes considered recommendation of names of persons for special recognitions, awards, or honorary membership.
- ◆ **Legislative** - Reviews existing and proposed federal, state, and local laws and ordinances, proposes needed legislation, and makes recommendations to the board for action.
- ◆ **Membership** - Actively solicits members to the association, maintains current membership list, and develops membership materials.

- ◆ **Finance** - Studies, reviews, and makes recommendations to the board on all financial matters of the association.
- ◆ **Resolutions** - Reviews and formulates resolutions and presents recommendations to the board, and the membership at the annual conference.
- ◆ **Nominating** - (Elected position) Nominates candidates for all offices, board membership, and membership on the nominating committee.
- ◆ **Strategic Planning** - Recommends long term and short term goals that the association should set to adequately promote public health.
- ◆ **Auditing** - Responsible for the annual audit of the association.
- ◆ **Community Outreach** - Responsible for actively promoting and improving public relations of the association and public health in Utah including press releases and publicity and coordinating Public Health Week.
- ◆ **By-laws** - Facilitates the development of and maintains, for the association, a manual of policies and procedures approved by the board.
